

Reimagining Workspaces - New Era of Hybrid

Microsoft announced Teams in November 2016. In 2017, it shifted Classroom to Teams and announced it would discontinue Skype for Business. New features and functionalities allow users to collaborate, and create from home, a café, or wherever they feel inspired with an all-in-one app that enables hybrid work anywhere.

Microsoft Teams for Unified Communication as a Service

CHAT

Share your opinion and have fun with your team. Send GIFs, stickers, and emojis in a group chat or in one-to-one messages.

MEET

Instantly go from group chat to video conference with the touch of a button. Teams of two or 10,000 can meet in one place from anywhere.

COMMUNICATE

Make and receive calls directly in Microsoft Teams with advanced features like group calling, cloud voicemail, and call transfers.

COLLABORATE

Easily find, share, and edit files in real time using familiar apps like Word, PowerPoint, and Excel in Microsoft Teams.

SECURITY

The security compliance commitments are enabled by default & complies with a range of regulatory security standards.

FLEXIBILITY

Microsoft Teams is a cloud-based service, it allows users to work from anywhere and on any device.
